**Hivetool Hive Instrumentation Package**

Version 0.3

- Notes:**
1. These prices do **NOT** include shipping or sales tax.
  2. Many items are purchased in bulk. If you build just one scale, the cost may be significantly higher.
  3. There are two load cell mounting options: Aluminum/Stainless Steel and Galvanized Steel. The aluminum is easier to cut and drill.
  4. The basic scale package will monitor, log, and transmit hive weight data through the internet.
  5. Options include video camera, temperature and humidity sensors (TEMPerHUM) inside and outside the hive.
  6. Internet connectivity can be via Wi-Fi or Ethernet. If just Wi-Fi, use the Model A Pi (\$25) plus Wi-Fi adapter.
  7. Strut should be available locally but can be ordered from McMaster-Carr. 5 foot lengths of strut and cover can be shipped UPS.

	Price Bulk	Quantity Bulk	Price Each	Quantity Used	Price Total	Part Number	Supplier
<b>Scale:</b>							
Either	<b>Aluminum/SS Mount</b>						
	\$47.50	6	\$7.92	2	\$15.83		Electrical Supply
